

Dear reader,

With this newsletter, we are concluding the EU-funded Horizon 2020 project on Next-generation Dynamic Digital EPCs for Enhanced Quality and User Awareness. After 3 successful years, we are happy to present the results.

It has been a pleasure to work in a group of so many competent partners where collaboration did not bring just good results but also good friendships that were formed through the thick and thin of the project.

DELIVERABLES

Final deliverables to be submitted at the end of the project

- D1.8 - Aspects of Next generation EPC's definition v3, KTU
- D1.9 - D^2EPC Framework Architecture and specifications v3, CERTH
- D2.6 - SRI indicators for next generation EPCs v2, CERTH
- D2.7 - Human-Centric indicators and user profiles for next generation EPCs v2. HYP
- D2.8 - Life Cycle Indicators for next generation EPCs v2, FRC
- D2.9 - Financial indicators for next generation EPCs v2, DMO
- D2.10 - D^2EPC Information Model for next generation EPCs v2, KTU
- D3.5 - D^2EPC Building Digital Twin v2, CERTH
- D4.5 - Building Performance Module v2, SEC
- D4.6 - Added value services suite v2, CERTH
- D4.7 - Extended dEPCs applications toolkit v2, HYP
- D4.8 - D^2EPC Digital Platform v2. SEC
- D5.2 - D^2EPC User Training Workshops, SGS
- D5.5 - Evaluation Report for D^2EPC Pilots, KTU
- D5.6 - D^2EPC Manual v2, SGS
- D5.7 - Pilot Planning and Setup v2, CERTH
- D5.8 - D^2EPC Pilots Demonstration v2, CLEO
- D6.3 - EPC and Building Renovation Passport, DMO
- D6.4 - Motivational schemes for conscious energy users, FRC
- D6.5 - Strategic Standardization Plan v2, ASI
- D6.6 - Recommendation report on integration of NG EPC in national/regional certification schemes v2, AEA
- D7.9 - Established internal and external communication channels and materials v3, DMO
- D7.11 - Report on Dissemination Activities v3, DMO
- D7.12 - Report on the contribution to standardization v2, UNE
- D7.13 - Exploitation Report and IPR Protection Plan v2, GSH
- D8.3 - Final Project Report, CERTH
- D8.10 - Data Management Plan v3, CERTH

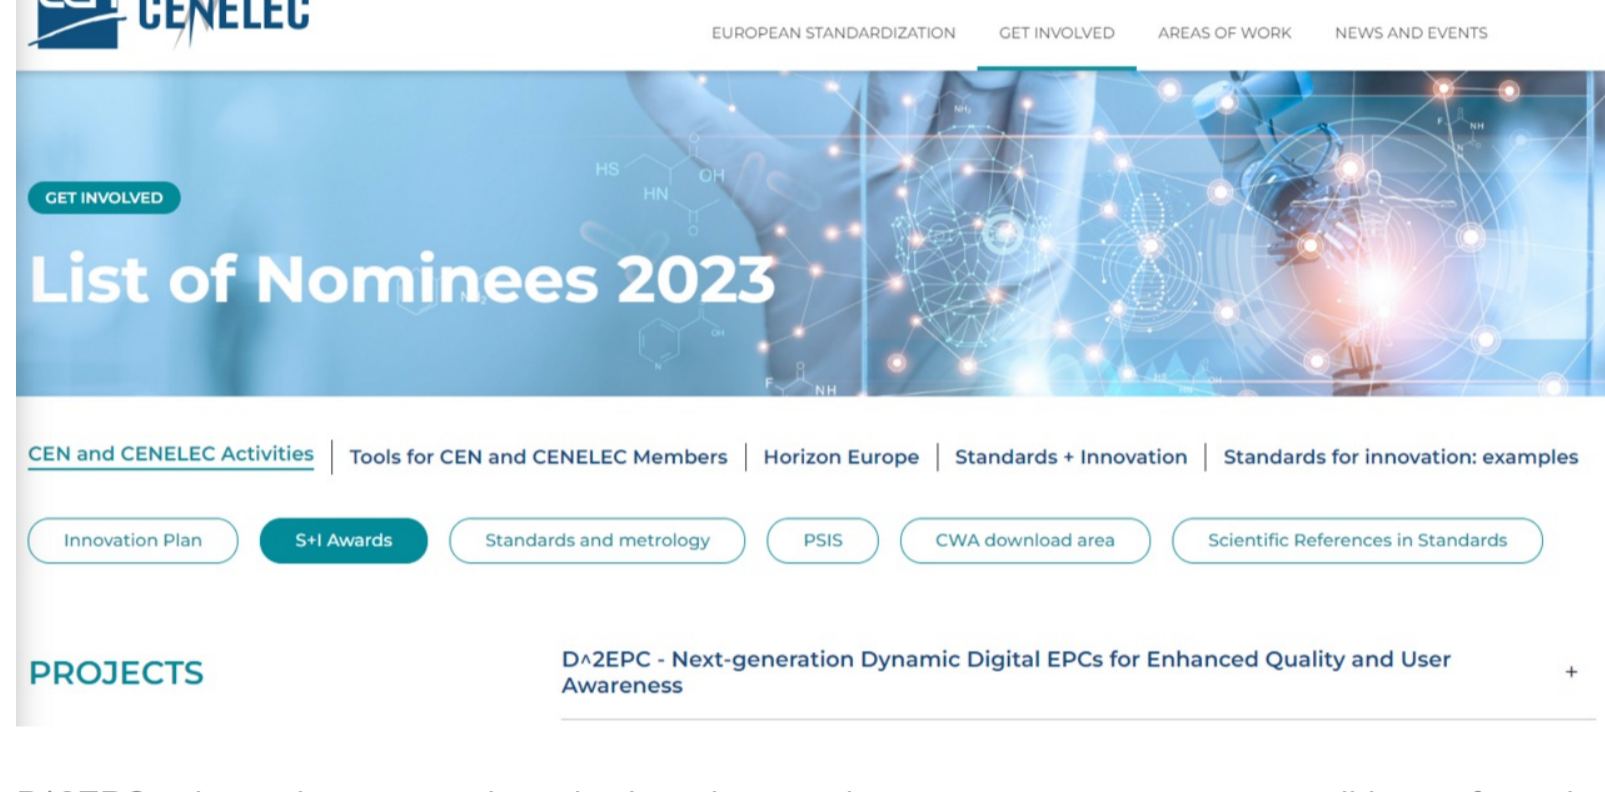

Publicly available reports will be accessible on our website

NEWS & EVENTS

In the last six months of the project, the consortium partners attended and organised many events, such as conferences, workshops, and webinars. A few highlights are presented below.

D^2EPC nominated as a candidate for the S+I awards 2023 of CEN/CENELEC

D^2EPC has been nominated in the project category as a candidate for the "Standardisation+Innovation Awards 2023" of CEN/CENELEC, the European standardisation body. D^2EPC proposes a new generation of energy performance certificates (EPCs) of buildings that integrate dynamic sensors and BIM. CYS (Cyprus) has nominated this project, in which two national standardisation bodies have participated: UNE (Spain) and ASI (Austria). The project has participated in CEN/TC 371, dealing with the energy performance of buildings, and proposed the creation of CEN/TC 371/WG 5 for operational EPCs, with Paris A. Fokaides as convener and UNE as Secretariat.

Joint Final Conference

Three EU-funded Horizon 2020 projects, D^2EPC, E-DYCE and ePANACEA, joined forces in organizing a final conference to present their outcomes, as all of them are reaching their end after 3 years of hard work. The event was held physically on the 24th of May 2023 at La Plaza Hotel in Brussels. The conference focused on "Next Generation Energy Performance Assessment, Rating and Certification: Towards a Smart and Decarbonised Future for European Buildings" where each project presented its own findings on how to optimize and extend the use of Energy Performance Certificates.

Final Consortium meeting

On the 12th and 13th of July, D^2EPC partners met at the consortium meeting for the final time before the completion of the project in August this year. The meeting took place in Delft, The Netherlands, and was hosted by partner DEMO Consultants. In this meeting, we were able to see the great progress we achieved in the past period, as most of the tasks and results are now in their final stage. The whole consortium worked hard throughout the 3 years of the project enabling all the pieces to finally come together.
